

Unitech Builders Corp is hiring!

We are hiring Project Engineers looking for an opportunity to move their career forward with an established construction firm.

Position Description: The Project Engineer position will be assigned to the field operations team and will assist in obtaining, evaluating, and coordinating all information needed to construct the project in accordance with the contract documents. They will assist in assuring all work meets is performed within the project schedule, constructed to the highest level of quality, and that safety standards are always met on the job.

Primary Responsibilities:

- ❖ Assist in the maintenance of contract documents and electronic web-based documents for field operations.
- ❖ Assist in the preparation of Daily Construction Reports (DCR's)
- ❖ Review contract drawings, specifications, and shop drawings to ensure proper coordination and installation.
- ❖ Assist in the implementation of the site safety program as required and ensure subcontractor compliance with Turner safety standards and all applicable safety codes and regulations.
- ❖ Review all work as it is being placed to be sure it is accurate within accepted tolerances.
- ❖ Supports the project team in establishing the sequential steps involved in all processes with the scope of the project and adapts schedules and work tasks accordingly.
- ❖ Works closely with the project team monitoring the safety, cost, and scheduling of construction projects.
- ❖ Coordinates material purchases, deliveries, tracking, and forecasting

Job Qualifications:

- ❖ Four-year college degree with a focus on engineering, architectural, or construction management
 - Summer internship/co-op experience in construction highly desirable.
- ❖ Excellent verbal, written and interpersonal communication skills.
- ❖ Ability to communicate effectively with all levels of the organization, as well as with customers and vendors.
- ❖ Proficient with Microsoft Office Suite (Word, Excel, and Outlook).
- ❖ Ability to read and understand drawings.
- ❖ Ability to meet deadlines and multi-task in fast paced environment.
- ❖ A basic understanding of scheduling programs preferred.

Physical Demands:

The physical demands described here are representative of those that must be met by an employee to successfully perform the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions. While performing the duties of this job, the employee is regularly required to sit; use hands to finger, handle, or feel; reach with hands and arms; talk or hear and taste or smell. The employee is frequently required to stand and walk. The employee is occasionally required to climb or balance and stoop, kneel, or crouch. The employee must frequently lift and/or move up to 50 pounds. Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception and ability to adjust focus.

Work Environment:

While performing the duties of this job, the employee regularly works on-site at the construction work site where the employee is exposed to moving mechanical parts; high precarious places; fumes or airborne particles; outside weather conditions and risk of electrical shock. The noise in these work environments is usually moderate to very loud.

- ❖ May perform other duties as necessary or assigned.

Qualified candidates will be considered without regard to race, sex, disability, veteran status, sexual orientation, or gender identity.
